

WHAT IS FRANCE ?

Can you name these buildings ?

Can you name these food ?

Do you know these brands ???

Do you know these sportsmen ?

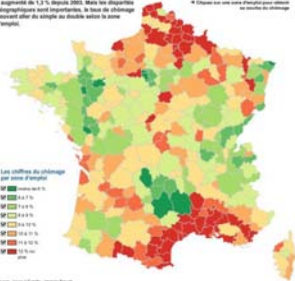

France culture: economy

- Our economy is not so well, and we have unemployment problems...

270195500076

France culture: politics

In France we have more than 20 political parties fighting, but usually only 2 can win. At the end, people say they are the same....

Extrême gauche	Ecologistes	Gauche	Centre	Centre Droit	Droite		Extrême Droite
- Parti Communiste  - Nouveau Parti Anticapitaliste 	- Verts  - Europe Ecologie 	Parti Socialiste (PS) 	Mouvement Démocrate (MoDem)  LE MOUVEMENT DÉMOCRATE	Nouveau Centre 	Union pour la Majorité Présidentielle (UMP) 	Chasse Pêche Nature Tradition 	Front National (FN) 
Buffet, Besancenot	Bové Mamère,	Royal Aubry Hollande...	Bayron	Hervé Morin,	Sarkozy Bertrand	Nihou	Le Pen

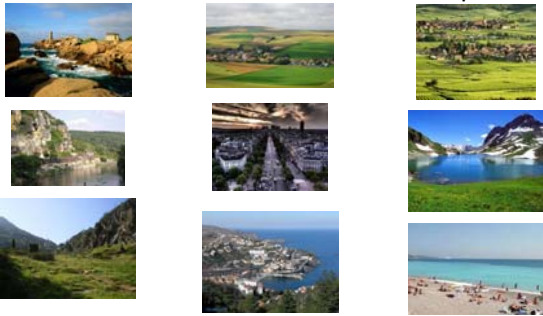

France culture : geography

- France in Europe

France culture : geography

- France is different wherever : landscapes

France culture : arts

- Litterature
- Paintings

What about after the 19th century and nowadays ???

Environmental issues I

- Environmental issues: sustainable development and biodiversity

Biodiversity protection : why ?
 - Ethical reasons ; potential resources for futures generations and each species has a right to live
 - Practical : species may be useful

Endangered species :
 - Bees
 - Big mammals and birds: Flagship species

Environmental issues II

- Nuclear or not nuclear...
- I) Centrals are getting old
- II) Radioactivity in the air
- III) Nuclear wastes
- IV) Accident risks

Environmental issues III

- climate changes and risk evolution

– The climate change is now, it will influence ocean currents, sea level, meteorological conditions and risks (flood drought, typhoons and hurricanes)

What future for the environment in France and in the world ?

- One population, several populations ? How to make the people from the cities and the rural world work together ?
 - Reduce the carbon footprint, is it enough ?
 - How to treat a worldwide problem at the State scale ?
 - After me the heavens can fall ... ?
-
- But anyway, the climate changes naturally, so even if human is responsible nowadays, why should we care ?

Was your vision of France twisted ? Here's ours of Japan
